I worked on efficient domain adaptation for large language models in the AllenNLP team. I was lucky to be supervised by [Jesse Dodge](#) and [Matt Peters](#).

Machine Learning Engineer

Behavioral Signal Technologies Inc.

Los Angeles, USA

11/2018-07/2019

- Built text classification models for emotion recognition from conversational data.
- Built neural models using PyTorch for basic emotion recognition.
- Developed machine learning infrastructure framework.

Software Engineer Intern

NOKIA R&D

Athens, Greece

07/2017-01/2018

- Assisted in coding a supervised machine learning algorithm based on Random Forest to predict code fault-proneness on internal team projects using a Cassandra NoSQL database.
- Coded in Python, used scikit-learn. Front-end with Flask.
